**REQUEST FOR CERTIFICATE OF CORRECTION**

Attn: Certificates of Correction Branch  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

A Certificate of Correction under 35 U.S.C. §§ 254, 255 and 37 C.F.R. §§ 1.322, 1.323 is requested for U.S. Patent No. 6,913,191. Correction of the following errors is requested.

**IN THE SPECIFICATION**

At column 4, line 40, after the word "FIG. 2", delete "shown" and insert therefor  
--shows--.

At column 5, line 43, after the word "manner", delete "simuar" and insert  
therefor --similar--.

At column 8, line 44, after the word "arrangement", delete "(more information needed here)".

At Column 8, line 59 to Column 9, line 8, delete the paragraph

"Assuming that the balance is sufficient, the program branches to step S24 to determine if a prompt to the calling party is required. This is similar to step S4 shown in FIG. 2 whereupon the program shown in FIG. 4 branches to step S25 to prompt the user with the available balance and the available length of call permitted based on that balance. Assuming that a prompt is necessary, at step S24, and that the prompt of step S25 has been provided to the calling party, the caller's response is examined at step S26. Assuming the caller does not authorize payment by the selected payment provider, the program branches to step S27 to determine if the user wants to authorize a different payment provider. This can be responded to by a simple Ayes@ or Ano@ by pressing the appropriate key on the keypad 12a, set forth here and above in describing the embodiment of FIG. 2."

and insert therefor

-- In addition to the above approaches, the data identifying the alternative payment providers may be moved to a device which is not contained within the device that requires the connection, (i.e., that is not contained within the mobile unit 12. As one example, shown in FIG. 6, the information identifying the alternative payment provider may be contained within a proxy in the infrastructure network. The proxy may be part of the home PLMN 18, as shown in FIG. 6 wherein like elements as between FIGs. 2 and 6 are designated by like numerals. In the embodiment shown in FIG. 6, the caller identity is passed on to the network step S1. At step S2 the caller information is used to access the home PLMN 18. The home PLMN 18 accesses the proxy, which may be a proxy server 24 at the home PLMN to obtain the information regarding the preferred and alternative payment providers by utilizing the caller identity to access the alternate payment information for that caller. The caller's identity may also be manually keyed into the mobile unit by the keypad and then used by the system to access the database remote from the caller's mobile unit to obtain the identity of the payment providers for that user.--

**Patentee: Goldberg et al.  
Patent No.: 6,913,191**

At column 9, line 20, after the word "802.11", delete  
"(more information needed)".

### **IN THE CLAIMS**

In claim 1, at column 9, line 42, after the word "costs", delete "charted" and insert therefor --charged--.

In claim 30, at column 12, line 19, after the word "requests", delete "the".

### **REMARKS**

The paragraph at Column 8, line 59 to Column 9, line 8 was deleted since it is a replica of the paragraph located at Column 6, line 61 to Column 7, line 11. This is an obvious printing error. The paragraph that should have been printed is the amended version of paragraph 0055 submitted to the Patent Office on November 15, 2004. No new matter has been added.

Patentees believe that the above errors are of such a nature as to justify the issuance of a Certificate of Correction. Patentees have enclosed a completed Certificate of Correction Form PTO/SB/44. Since at least one of the errors was caused by Applicant, please charge the surcharge fee of \$100 to the Deposit Account of InterDigital Communications Corporation, Deposit Account No. 09-0435.

**Patentee: Goldberg et al.**  
**Patent No.: 6,913,191**

Patentees respectfully request that the Certificate of Correction be issued.

Respectfully submitted,

Goldberg et al.
